Gallery Joe

Gallery Joe opened for business in 1993 in Philadelphia, PA. The gallery's program is highly specialized, dedicated exclusively to the exhibition of contemporary drawing from the late 80's forward. The mission of the gallery is to show work that is intellectually stimulating and thoughtfully executed in a variety of styles and media. The gallery represents and shows emerging and mid-career artists from both the US and abroad who have chosen to make drawing central to their practice.

In 2015 Gallery Joe closed its public space and moved to private quarters.
